

# Which genre has the most albums in our database?

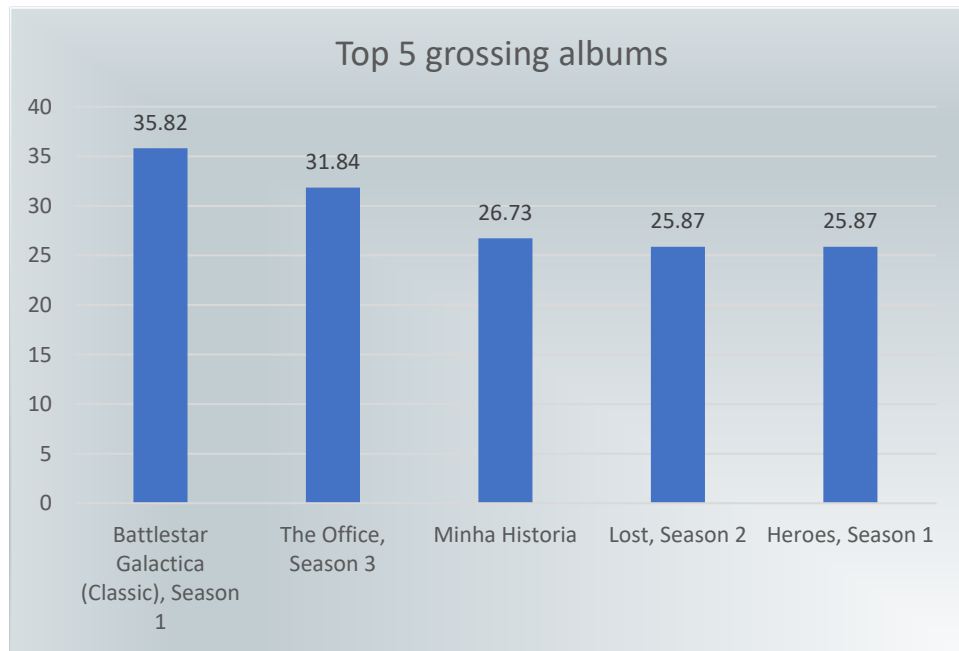

The Rock genre has the most album count of all the present genres. Latin, Metal, Alternative & Punk come second, third and fourth respectively as they alongside Rock complete the majority of the album's genres

# What genres our customers buy/listen to the most?

Rock is the highest-selling genre in our database worldwide.

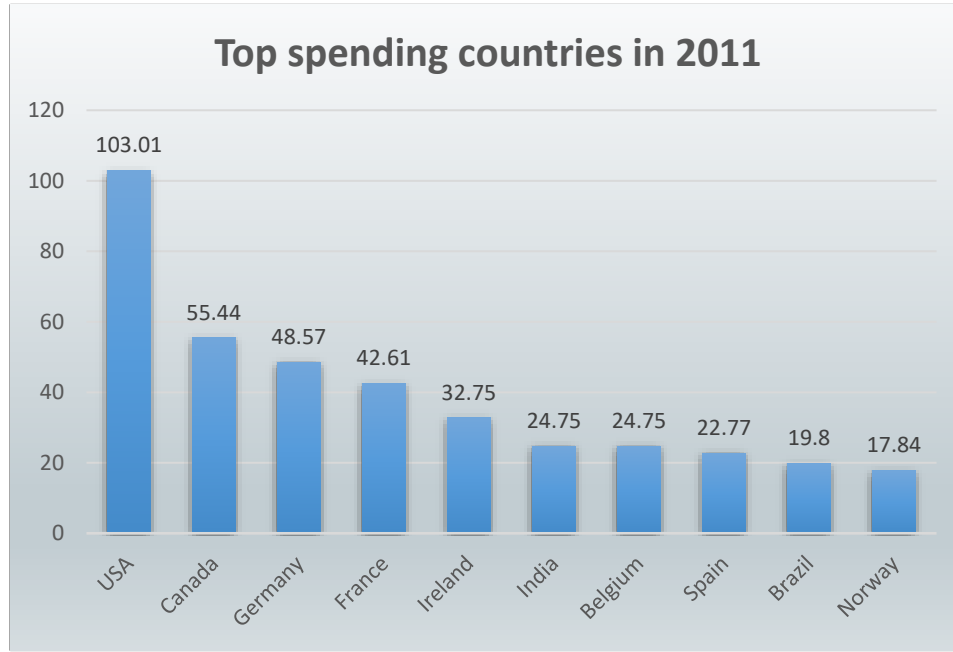

# Top 5 grossing albums of all time

There is a trend shown here in this chart. Most of the top 5 albums sales are for tv shows albums, despite this was not the case in the previous slides, where the Rock genre dominated sales and almost half of our database.

In conclusion, this is because listeners nowadays listen to songs more individually than listening to full albums.

# Top spending country In 2011

USA is the number one spending country in the year 2011.
